[Sourcewell Procurement Portal](#) 

TV season

Continued from Page 1D

10. 'When They See Us' (Netflix)

Director Ava DuVernay turns her camera to the so-called Central Park Five in this miniseries, an unflinching look at the experience of the five black and Latino teens who were wrongfully convicted of the 1989 rape of a jogger in Central Park. DuVernay's blunt style, coupled with performances from the exceptional young actors makes "Us" hard to watch but impossible to miss.

9. 'The Good Fight' (CBS All Access)

"The Good Wife" spinoff remains one of the only TV series that properly articulates our current era of anxiety, and not just because it continues to rip its stories from the headlines. The new season is an even wilder ride than the two that came before it, adding Michael Sheen as an unhinged lawyer and sparing no one from its satire – not even former CBS head Les Moonves. It's worth subscribing to All Access just for "Fight."

8. 'Shrill' (Hulu)

The biggest problem with Aidy Bryant's sitcom is that there isn't enough of

it. The first season of the series, based on the memoir by fat acceptance activist Lindy West, is a treasure, full of promise wedged into the six episodes Bryant had time to film between "Saturday Night Live" seasons. The series, in addition to being an honest portrayal of what it's like to be a fat woman, is a charming relationship and workplace drama that turns Bryant into a star.

7. 'Superstore' (NBC)

NBC's "Superstore" is the rare sitcom to get better with age, and its fourth season found a brilliant story to tell, with Amy (America Ferrara) promoted to manager just as her friends and former coworkers begin to discuss unionizing. With a deep bench of comedic talent, the series could go on for years to come.

6. 'Killing Eve' (BBC America)

The first season of the BBC America drama was a surprise hit for the network, a critical darling and the beginning of a career resurgence for Sandra Oh. The new season proves it wasn't a fluke and finds a way to expand its story beyond a simple tale of MI-6 cat (Oh) and assassin mouse (Jodie Comer).

5. 'What We Do in the Shadows' (FX)

The brilliance of "Shadows" isn't a

surprise for fans of the cult 2014 mockumentary about feckless vampires in New Zealand upon which it's based. The story is seamlessly translated into half-hour episodes by original directors Jemaine Clement ("Flight of the Conchords") and Taika Waititi ("Thor: Ragnarok"), who invent new but equally bumbling vampires to cause chaos in Staten Island, New York.

4. 'Chernobyl' (HBO)

HBO's account of the 1980s nuclear disaster in the Soviet Union could have been a rote historical drama, a simple re-telling of a tragedy that has become a buzzword. But "Chernobyl" does so much more than give a dry history lesson. Horrifying and fascinating in equal parts, the series is a searing indictment of the lies, corruption and incompetence that led to the tragedy.

3. 'Dead to Me' (Netflix)

With a duo of outstanding actresses (Christina Applegate and Linda Cardellini), an electric script and twists that manage to shock in a jaded era, "Dead to Me" is one of the best new series of the year, and one of Netflix's best ever. Applegate in particular shines in the tragicomedy about two women who meet in a grief support group and become irrevocably tangled in each other's lives. "Dead" recently was renewed for a sec-

ond season.

2. 'Leaving Neverland' (HBO)

This year has been filled with documentaries that give voices to victims of alleged abuse, from "Lorena" to "Surviving R. Kelly."

But even in this context "Neverland" stands out for its sensitive and harrowing portrayal of trauma in telling the story of two men, Wade Robson and James Safechuck, who have accused the late pop icon Michael Jackson of sexually abusing them when they were boys.

1. 'Fleabag' (Amazon)

The second season of Phoebe Waller-Bridge's "Fleabag" is a monumental achievement, the closest thing to perfection that television has gotten in years.

In just six episodes, Waller-Bridge, who wrote and stars in the series, brings comedy, romance and blistering tragedy to life, somehow managing to best her brilliant 2016 first season. The new episodes find Waller-Bridge's nameless protagonist falling for a Catholic priest while questioning her own self-worth and ability to love in the process. The actress and writer has said that this is the end of "Fleabag," and although the final episode concludes the story gorgeously, it's hard to accept that there isn't any more of this wonderful series.
