3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be

In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be negotiated directly between the Participating Entity and the Supplier. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

In 1930, Carrier Air Conditioning was formed through the merger of Carrier Engineering Corporation with Brunswick-Kroeschell Company and York Heating & Ventilating Corporation. In 1978, Carrier Corporation, a corporation organized in the State of Delaware, became a wholly owned subsidiary of United Technologies Corporation, and was subsequently spun off as a stand alone company in April of 2020. Carrier Corporation is the leading manufacturer of heating, ventilation and air conditioning equipment and service in the United States with sales totaling approximately \$19 Billion in 2020.

40	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	One of the U.S. Government's testing agencies recently found that Carrier's variable-speed screw chiller consumed less energy and offered a greater range of operating conditions than alternative water-cooled chiller technology. Overseen by the General Services Administration, the Green Proving Ground program appointed Oak Ridge National Laboratory to perform real-world testing of two chillers: one with variable-speed screw technology and the other with maglev centrifugal technology. The findings showed variable-speed screw technology, like that in Carrier's AquaEdge® 23XRV water-cooled chiller, was more efficient, more versatile and required less maintenance than the maglev centrifugal and at a lower installed cost. When compared across a broad range of operating conditions, the variable-speed screw chiller consumed 11 percent less energy than the maglev centrifugal chiller. Based on the data, the variable-speed screw chiller also has an equipment price that is more than 30 percent lower than the maglev centrifugal chiller with the same cooling capacity.

In the event any such service is determined to be defective within ninety (90) days of completion of that service, Carrier shall at its option re-perform or issue a credit for such service. Carrier's obligation to repair or replace any defective equipment, parts or components during the warranty period shall be Customer's exclusive remedy. Carrier shall not be responsible for labor charges for removal or reinstallation of defective equipment, parts or components, for charges for transportation, handling and shipping or refrigerant loss, or for repairs or replacement of such equipment, parts or components, required as a consequence of faulty installation, misapplication, vandalism, abuse, exposure to chemicals, improper servicing, unauthorized alteration or improper operation by persons other than Carrier.

Table 9B: Performance Standards or Guarantees

Describe in detail your performance standards or guarantees, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your performance materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *
51	Describe any performance standards or guarantees that apply to your services	<p>Carrier warrants that all equipment manufactured by Carrier Corporation and all Carrier equipment, parts or components supplied hereunder will be free from defects in material and workmanship. Carrier shall at its option repair or replace, F.O.B. point of sale, any equipment, part or component sold by Carrier and determined to be defective within one (1) year from the date of initial operation or eighteen (18) months from date of shipment, whichever is earlier. Carrier does not warrant products not manufactured by Carrier Corporation, but it does pass on to Customer any available manufacturer's warranty for those products. Carrier warrants that all service provided by Carrier hereunder shall be performed in a workmanlike manner. In the event any such service is determined to be defective within ninety (90) days of completion of that service, Carrier shall at its option re-perform or issue a credit for such service, Carrier's obligation to repair or replace any defective equipment, parts or components during the warranty period shall be Customer's exclusive remedy. Carrier shall not be responsible for labor charges for removal or reinstallation of defective equipment, parts or components, for charges for transportation, handling and shipping or refrigerant loss, or for repairs or replacement of such equipment, parts or components, required as a consequence of faulty installation, misapplication, vandalism, abuse, exposure to chemicals, improper servicing, unauthorized alteration or improper operation by persons other than Carrier.</p>
52	Describe any service standards or guarantees that apply to your services (policies, metrics, KPIs, etc.)	<p>Quality Assurance of Products & Services</p> <p>In early 1990, Carrier's Service Marketing Division developed a process for Service Product Design and Implementation. Once a concept is established, it progresses through a feasibility study, where customers are consulted via focus groups or questionnaires. If management approval is obtained, a multi-functional team selected from marketing and operations is formed to undertake the project.</p> <p>Consequently, field training must take place for the proper delivery of the service product. This can be a concurrent activity with the technical training that must accompany each product. Training sessions are held at the region or district offices, with all office personnel involved. This includes the clerical people who administer the product, the engineers who may be called upon to install the product, the managers who manage the product's introduction, and the technicians who are involved in product installation and delivery.</p> <p>In product introduction, the project manager meets with quality review teams and suppliers to assure that the final product meets the initial goals for the product. Once the product is field implemented, the Customer Service Report (CSR) provides the means to communicate product deficiencies. Service marketing compiles the data via statistical analysis and the information is passed on to the appropriate suppliers.</p> <p>What service was sold versus what service was performed is a key indicator in the service business. Method of documentation of this indicator includes a computerized scheduling system, and the Customer Service Report (CSR) time tickets.</p> <p>The Customer Service Report (CSR), is a critical document for conformity. The CSR consists of several sections. The equipment information, model and serial numbers are recorded to identify the machine. A task code is used to identify the work done. Additionally, operating log readings are taken to verify the proper operation of the machine within design conditions. Calculations are done by the mechanic to confirm that operation is within the design specifications. Space on the form is dedicated to parts used, written description of work done and abnormalities discovered by the servicing mechanic. Finally, after all service is performed, customer signatures are obtained to verify that the work was done to the customer's satisfaction.</p> <p>The service performance key indicators are measured monthly by management. If any discrepancies are noted, the next level of management meets with the entity, determines the root cause of the existing performance as a comparison to plan and develop action plans to rectify the situation. These action plans detail specific areas of concern, outlining actions to be taken, timing, and responsibilities. Monthly follow-ups are conducted and actual results compared to planned results. Further corrective actions are taken as required.</p> <p>For product hardware, statistics and data compiled by the CSR Report feedback process determines product deficiencies. Its purpose is to allow the mechanic to receive technical assistance during startup, to give feedback to engineering on problems encountered with the unit. This information is shared with the components supplier and action items implemented to correct the situation. Management makes a required vendor visit to assure that the proper actions are implemented.</p> <p>In a distributed technical organization, there is the need to communicate service instructions across the nation. The principle vehicles for these transfers of information are the Service Bulletin and Equipment Technical Manuals.</p> <p>The need to generate technical bulletins is created by the input received from the field service organization through Customer Service Report (CSR) documents which are reviewed by U.S Field Operations (USFO) customer assurance personnel and field requests for assistance.</p> <p>Carrier uses both formal and informal approaches to assess the quality of its systems, processes, practices, products and services. Formally, Carrier Systems and Services assess the quality of the above with measurements. Some of the measurements include yearly audits (i.e., policies, procedures, purchasing, signature authority, safety), product failure rates on a monthly basis, service agreement cancellations, customer surveys (customer satisfaction index), and customer complaints.</p> <p>There are Product Management Councils set up to monitor, review and take action for specific products. Examples are the chiller, airside products, and controls products quality councils which meet on a quarterly basis or as required.</p> <p>Carrier is committed to delivering a quality product or service at an appropriate price. We have or are implementing processes that allow us to measure the quality of our current offerings, assess opportunities for improvement and implement changes, when needed, to improve our quality or modify our products to meet new customer requirements.</p>

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *
53	Describe your payment terms and accepted payment methods?	Net 30. Payment is accepted via check, credit card, or wire.
54	Describe any leasing or financing options available for use by educational or governmental entities.	N/A
55	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcewell participating entities' purchase orders.	Rather than utilize a dealer network, Carrier Corp directly employs its sales and service force. As a Sourcewell incumbent, Carrier has successfully provided quarterly reports since 2017.
56	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Carrier has created a pricing template which details contract labor rates, material markups, and equipment discounts from master pricing. This document is distributed to our field upon contract award, and stored on a shared drive for all company employees to access. Template uploaded to this RFP as a reference.
57	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Yes, and at no additional costs.

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
58	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	See attached pricing template.
59	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	See attached pricing template.
60	Describe any quantity or volume discounts or rebate programs that you offer.	None.
61	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Sourced Parts are generally marked up using a pre-negotiated Mark up schedule. See attached pricing template for rates.
62	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Trip charges and consumable charges apply to every visit.
63	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	All shipments shall be F.O.B. shipping point, freight prepaid and allowed to the job site. Shipment dates quoted are approximate. Carrier does not guarantee a particular date for shipment or delivery. Carrier shall have the right to ship any portion of the equipment included in this Agreement and invoice Customer for such partial shipment.
64	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Same as above.
65	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Any unique requirements will be discussed on a customer by customer basis.

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
66	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
67	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	Carrier Corporation utilizes a pricing tool that can be pre-loaded with Sourcewell's pre-negotiated rates, and markups. This ensures that users are compliant while creating competitive bids for Sourcewell members. A National Account Manager will review all bids prior to submission to ensure consistency, and correctness.
68	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	The Carrier National Account Manager will use two tools to track the Sourcewell contract usage. One is a tracking list maintained by the National Account Manager, and the equipment team. The second resides in our service-sales software, which will track and report quoted or sold jobs throughout the life of the contract.
69	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	2%

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *
70	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	Heating, ventilation, air-conditioning and refrigeration systems, controls, services, and sustainable solutions for commercial, industrial, and transportation applications.
71	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	Parts sales, new equipment factory startup, turnkey product installations, upgrades, indoor air quality solutions.

4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.

10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
11. Proposer its employees, agents, and subcontractors are not:
