All personnel must be fully informed of the criteria, data sources, methodologies, and procedures associated with the evaluation process before the evaluation takes place. Additionally, the Principal shall assist the teachers within the school to use student assessment data, as measured by student learning growth gains pursuant to State law for self-evaluation and improvement.

The evaluation system for instructional personnel will:

The performance of students shall also include growth or achievement data of the teacher's students for at least three (3) years or, if less than three (3) years is available, the years for which data are available. The proportion of growth or achievement data may be determined by instructional assignment.

For classroom teachers of grades and subjects for which their students' performance is assessed by Statewide standardized assessments, the District ~~may~~ shall measure student learning growth using the formulas approved by the Commissioner and the standards for performance levels adopted by the State Board for courses associated with the Statewide, standardized assessments administered under F.S. 1008.22 no later than the school year immediately following the year the formula is approved by the Commissioner (see F.A.C. 6A-5.030 and 6A-5.0411).

For classroom teachers of grades and subjects for which their students' performance is not assessed by Statewide standardized assessments, the District shall use the methodology set forth in the District's evaluation plan that is submitted to and approved by the FLDOE to measure the student's performance upon which to base one-third (1/3) of the performance evaluation.
