Jeff,

Please see the attached. You guys can piggy back Hernando County School Board for this project.

Let me know what else I can assist you with.

Thank you

Kirstin

Hi Kirstin,

Please call me back on this. 305-360-1424. Our Lock System coordinator, Len Rhodus, was speaking with Luis Prieto from Schlage. He indicated that he would provide special pricing for us to help you be able to use the Seminole contract for us to piggy back. Please help us on this. I am very quickly running out of time to get this to our next board meeting. This project has the attention of our executive leadership.

Thanks,

Jeff Barrow

Director of Maintenance

Ok great thank you very much. I will get with my boss and we'll figure out what bid can handle those

items and that QTY and let you know asap.
Kirstin

Hi,

As we spoke on the phone the quantities we need go beyond our threshold for purchasing without competitive bid. We need a contract that has been awarded that we can piggy back since we do not have the time to bid ourselves. It appears that the Seminole County School Bid would work. If this is not the case please recommend another one that we can use. I need to pull this together this week or I will miss our next board meeting. Here are the estimated quantities needed.

All locks have 626 finish, IC core RHO handles, except ND 80 faculty which has standard cores
Schlage

ND 80 storeroom 450 each
ND 70 classroom 55 each
ND75 classroom security 15 each
ND 10 passage 20 each
ND 40 privacy 50 each
ND 85 faculty restroom with cylinders 10 each
ND 50 office locks 75 each
Everest IC core cylinders for some above 350 each
Primus IC core cylinders for some above 225 each
Schlage storeroom key cams 70 each

Von Duprin
Special dogging with cylinders 99CDK-T 145 30 each
Special dogging with cylinders 99CDK 2SI 60 each

Thanks,

Jeff Barrow
