I would like to donate my 2006 Toyota Camry to the Automotive program at Key West High School.

The car does not run and would be donated for parts and practice for the program. It's value is approximately \$1000-\$1500.

The copy of the registration is below. I would be responsible for getting the vehicle to Key West High School and once it is donated and the transfer process is complete, I release all liability as the vehicle will then be uninsured.

Gentlemen,

I would like to donate my 2000 Oldsmobile Silhouette to the Key West High School automobile repair department. The vehicle is drivable. The engine runs well. The body needs some work. It needs new breaks but the tires are 6 months old. The current Kelley Blue Book private party value is between 600.00 and 1500.00. My estimated value is 900.00.

Best,

Scott Wilcox
