COMPANY PROFILE

Compass Office Solutions

A. COMPANY PROFILE

A BETTER WAY

Compass Office Solutions is a team of 18 community-centric professionals dedicated to guiding our customers to the best solution to their business environment needs.

Compass has revolutionized the South Florida commercial dealer market by designing an outsource business model that dedicates all resources to client requirements and eliminates costly, inflexible, fixed overhead cost that inflate prices paid by our client while contributing little to the client's business.

Therefore, at any one time we employ 20-60 Compass-Certified project management, warehousing, delivery and Installation personnel from our five regional warehouses to position the "right" resource at the "right" price to address the need of our client. Our internal team manages these resources exclusively to your project requirements and to insure Compass Quality Standards.

We chose Allsteel as our primary manufacturing partner 13 years ago and are the second largest Allsteel representative in the State of Florida.

We are partners with OFS Brands for your private office furniture requirements, and we are the leading Prefabricated Interior Construction company in South Florida. Our factory partner for prefabricated solutions is DIRT.
