# Teacher Feedback

"I have been provided with plenty of resources and the opportunity to try new technology teaching tools. I plan to incorporate many of these tools in my lesson plans next year, as well."

"I now feel confident with online instruction. I feel like I have been provided proper training and materials to take on online teaching. I am super excited to use Google Meet to see my students "face to face"."

"I am confident that I will be successful in using Google Meet and Google Classroom for virtual instruction. I feel that we have been provided a lot of resources as suggestions, and that I can modify to fit the needs of my students and select options that work best for our 2nd grade team. Google Meet will be great for checking in with our students and grade-level meetings."

"I have become more comfortable with online teaching. The video chats are the next best thing to having my students in class."
