**ADDENDUM NO. 1**

RFP No.: RFP-2020-020-EH  
RFP Title: Roofing Services  
Date: October 28, 2020

This addendum is being issued to clarify and/or revise the solicitation documents, proposal specifications, drawings, and/or blueprints. This Addendum modifies, supplements or replaces information in the Request for Proposals Roofing Services, RFP-2020-020-EH, and is hereby made part of the original Contract Documents.

Unless specifically modified by this Addendum, the previously issued documents remain unchanged and in the event of a conflict between this Addendum and previously issued documents, this Addendum shall prevail.

**REVISIONS TO RFP:**

1. REFER TO ATTACHMENT E, PRICE PROPOSAL FORM:  
The separate Price Proposal Form Excel document is available for download on [www.demandstar.com](http://www.demandstar.com).

**RESPONSE TO QUESTIONS AND REQUESTS FOR INFORMATION FOR RFP:**

2. RESPONSE TO QUESTIONS AND REQUESTS FOR INFORMATION FOR RFP:

QUESTIONS	ANSWERS / RESPONSE
<b>Q1.</b> When pulling up the documents from DemandStar there was no excel spreadsheet for the pricing, please can you provide it or have it uploaded. There are only 4 documents uploaded - RFP, Attachment D, Attachment D Exhibit B, Attachment J.	The excel form for Attachment E - Price Proposal Form is available for download on demandstar.com.
<b>Q2.</b> The specs do not have a date and time of when RFI's are due. In the table on page 3 it says see Section 2.4.1 and 2.4.1 says see table.	Per Section 2.5, Tentative Calendar, the date RFIs/written questions are due is <b>11/8/2019</b> , as stated in the list of pre-scheduled calendar dates, in the first column for the item for <i>Written questions due</i> . RFIs/written Questions are due on 11/8/2019 by the end of that day.

3. **ATTACHMENT:**

Attachment E - Price Proposal Form Excel document (Available for download on demandstar.com.).

**ADDENDUM NO. 2**

RFP No.: RFP-2020-020-EH  
RFP Title: Roofing Services  
Date: November 21, 2020

This addendum is being issued to clarify and/or revise the solicitation documents, proposal specifications, drawings, and/or blueprints. This Addendum modifies, supplements or replaces information in the Request for Proposals Roofing Services, RFP-2020-020-EH, and is hereby made part of the original Contract Documents.

Unless specifically modified by this Addendum, the previously issued documents remain unchanged and in the event of a conflict between this Addendum and previously issued documents, this Addendum shall prevail.

**1. RESPONSE TO QUESTIONS AND REQUESTS FOR INFORMATION FOR RFP:**

**RFI Question #3:** We are very interested in bidding on this RFP. It's our subcontractor that has the following:

- Proposer must have a minimum of five (5) years' experience in provision of commercial roofing services
- Certified Roofing Contractors License issued by the State of Florida Construction Industry Licensing Board.

Will that be an issue?

**Response to RFI Question #3:**

To clarify, the "Proposer" is the company who submits the proposal and who signs the contract with the College.

**Per RFP-2020-020-EH, Section 2.3, MINIMUM QUALIFICATIONS:**

In order to be considered, a **Proposer (i.e. the company submitting the proposal and signing the contract)** must:

- Be normally and routinely engaged in predominately performing roofing contractor services.
- Have a minimum of five (5) years' experience in provision of commercial roofing services.
- Possess a license for "Certified Roofing Contractors License" issued by the State of Florida Construction Industry Licensing Board.

No other licenses will be accepted. Failure to have this license will result in RFP response being deemed non-responsive.

**2. ATTACHMENT(s) to this Addendum: None.**

Re: Letter of Transmittal  
RFP No. 2020-020-EH  
Roofing Services

Dear Ms. Hunt

Advanced Roofing, Inc. has performed roofing services under the following contracts; RFP #807-006, RFP #800-005, RFP #2010-109RP and RFP #2014-239-EH for the past 19 years for Broward Community College. We have worked at Broward Community College for the past 34 years.

We value our relationship with Broward College and look forward to assisting Broward College in all of their future goals. Advanced Roofing, Inc. continues to perfect and bring even more value to Broward College with our Roof Asset Management software, Roof Express.

Below please find the contact who will be authorized to make representations for the proposer.

Michael Kornahrens, Vice President

Thank you

Robert P. Kornahrens  
President

## Request for Taxpayer Identification Number and Certification

Give Form to the  
requester. Do not  
send to the IRS.

► Go to [www.irs.gov/FormW9](http://www.irs.gov/FormW9) for instructions and the latest information.

Print or type.  
See Specific Instructions on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.

**Advanced Roofing, Inc.**

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC

☐ C Corporation

☒ S Corporation

☐ Partnership

☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ►

**Note:** Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is not disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ►

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) \_\_\_\_\_

Exemption from FATCA reporting code (if any) \_\_\_\_\_

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.

**1950 NW 22nd Street**

6 City, state, and ZIP code

**Fort Lauderdale, FL 33311**

7 List account number(s) here (optional)

Requester's name and address (optional)

### Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

**Note:** If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

\_\_\_\_ - \_\_\_\_ - \_\_\_\_

or

Employer identification number

5 9 - 2 3 6 0 5 9 1

### Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

**Certification instructions.** You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

## General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

**Future developments.** For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to [www.irs.gov/FormW9](http://www.irs.gov/FormW9).

### Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)

- Form 1099-DIV (dividends, including those from stocks or mutual funds)
  - Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
  - Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
  - Form 1099-S (proceeds from real estate transactions)
  - Form 1099-K (merchant card and third party network transactions)
  - Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
  - Form 1099-C (canceled debt)
  - Form 1099-A (acquisition or abandonment of secured property)
- Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

*If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, later.*

**SWORN STATEMENT PURSUANT TO SECTION 287.087, FLORIDA STATUTES, AS CURRENTLY ENACTED OR AS AMENDED FROM TIME TO TIME, ON PREFERENCE TO BUSINESSES WITH DRUG-FREE WORKPLACE PROGRAMS.**

**THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.**

This sworn statement is submitted to The COLLEGE,

by Robert P. Kornahrens, President

(Print individual's name and title)

for Advanced Roofing, Inc.

(Print name of entity submitting sworn statement)

whose business address is 1950 NW 22nd St., Fort Lauderdale, FL 33311

and (if applicable) its Federal Employer Identification Number (FEIN) is 59-2360591

(If the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement: \_\_\_\_\_.) I certify that I have established a drug-free workplace program and have complied with the following:

1. Published a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Informed employees about the dangers of drug abuse in the workplace, the business' policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
3. Given each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notified the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five days after such conviction.
5. Will impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community by, any employee who is so convicted.
6. Am making a good faith effort to continue to maintain a drug free workplace through implementation of this section.

**RE: ADVANCED ROOFING INC. - Risk Management/Insurance Protection**

We are the risk advisor for Advanced Roofing, Inc. The purpose of our correspondence is to share with you some of the highlights of the Advanced Roofing risk management programs. We will be sharing with you some details of the protection Advanced Roofing, Inc. provides to their clients to protect your assets. ARI has achieved an A+ superior risk management rating due to their strict risk and job safety quality controls.

- **RECOGNITION BY INSURER** – CNA one of the largest construction insurers in the country recognizes Advanced Roofing as a “best in class” contractor for ARI’s commitment to safety and loss control.
- **SEVERE LOSS PROTECTION** - ARI has a \$27M aggregate limit of insurance protection. ARI has a \$26M occurrence limit in the event of a covered bodily injury or property damage claim that may occur on a jobsite or from an automobile injury.
- ARI’s exceptional workers’ compensation experience modification rating allows them to secure reduced insurance rates which, in turn, translates into savings for you, their clients.

Advanced Roofing, Inc. has a full time safety director, as well as a risk manager that aggressively manages their internal, as well as managing their clients’ risk during the course of their construction projects. Advanced Roofing, Inc. believes deeply in educating and training their roofing mechanics to deliver to you the quality and workmanship your roofing asset deserves. The ARI training program separates them from many other roofing professionals. This past year alone, Advanced Roofing, Inc. has conducted the following training programs:

- 87 employees have received the OSHA 10-Hour training to promote safety competency.
- 30 foremen and construction managers have received the OSHA 30-Hour training.
- 18 employees were Certified Roofing Torch Applicators (CERTA).
- 17 foremen and construction managers received certification in first aid and CPR.
- ARI has safety training at 6 a.m. Monday through Friday every single week.

## ADVANCED ROOFING

### Page 2

- **GENERAL LIABILITY PROTECTION** – Advanced Roofing has the following protection included in their general liability portfolio of protection:
  - Habitational/Residential – Including Multi-Family
  - Torch Coverage
  - “Hot” Applied Roof System Coverage
  - Unlimited Building Height Protection
  - There is no water damage exclusion
- **AUTOMOBILE PROTECTION** – ARI has an occurrence limit on the commercial automobile protection of \$26M in the event there is a covered bodily injury or property damage on your job site stemming from Advanced Roofing’s operations. (Carrier A-excellent rated A.M. Best Co.)
- **COMMERCIAL UMBRELLA** – Advanced Roofing has a \$25M limit of liability. (Zurich A+ superior rated by A.M. Best Co). Their umbrella provides protection above their underlying general liability and auto protection.
- **INSTALLATION FLOATER – BUILDERS’ RISK** – ARI has secured protection for certain stored materials that are to be installed on your job site. This protection reduces the economic loss to you, the owner of the project, during the course of construction.
- **MOLD/POLLUTION LIABILITY PROTECTION** – ARI has secured \$1M limits of liability to protect you, the owner, in the event that there is a covered cause of loss stemming from mold, algae, fungi, etc. as a result of the roofing operations of ARI. This highly specialized coverage illustrates to you, the owner, that ARI is serious about protecting your assets during the course of the construction project.

When you are investing in a roofing system, we encourage you to explore deeper than what is the cost of the roof. Advanced Roofing’s commitment to quality and the experience they deliver places them at the top of the roofing profession. ARI is recognized by the following organizations for professionalism and community contributions:

- Professional Roofing Magazine
- Roofing Contractor Magazine
- Roofing Siding Industry Magazine
- Florida Forum Magazine
- Dunn & Bradstreet
- National Football League
- Partnership for Rebuilding America
- South Florida Business Journal
- Roof Connect Founding Member
- Orlando Business Journal

## ADVANCED ROOFING

Page 3

ARI is recognized for their industry accomplishments as well as for reinvesting back to the community and environment. Experience Does Matter!!! Whether it be service, maintenance, new construction, re-roofing, repairs, or retro-fit, ARI has a solid portfolio of protection in order to responsibly protect your building assets

Sincerely,

Re: Advanced Roofing, Inc.

**Letter of Bondability**

To Whom It May Concern,

Advanced Roofing, Inc. is a highly regarded and valued client of American Global and The Guarantee Company of North America USA and is capable of providing Performance and Payment Bonds in the amount of \$40 million for any single contract and \$150 million in the aggregate. The Guarantee Company of North America USA is rated by AM Best as A (Excellent), Class VIII and is licensed to do business in all 50 States.

Naturally, we would expect that the execution of any final bonds would be subject to our normal underwriting review of the final contract terms and conditions by our client and ourselves. If we can provide any further assurances or assistance, please do not hesitate to call upon us.

This letter does not constitute an assumption of liability, and we assume no liability to you or to any third parties by the issuance of this letter.

Sincerely,  
The Guarantee Company of North America USA

William Greffe Griffin  
Attorney-in-Fact

The Guarantee Company of North America USA  
Southfield, Michigan

## POWER OF ATTORNEY

KNOW ALL BY THESE PRESENTS: That THE GUARANTEE COMPANY OF NORTH AMERICA USA, a corporation organized and existing under the laws of the State of Michigan, having its principal office in Southfield, Michigan, does hereby constitute and appoint

Michael Marino, William Grefe Griffin, Torre Taylor, Ricardo Davila Lamar, Elizabeth De La Caridad Lang  
American Global, LLC

its true and lawful attorney(s)-in-fact to execute, seal and deliver for and on its behalf as surety, any and all bonds and undertakings, contracts of indemnity and other writings obligatory in the nature thereof, which are or may be allowed, required or permitted by law, statute, rule, regulation, contract or otherwise.

The execution of such instrument(s) in pursuance of these presents, shall be as binding upon THE GUARANTEE COMPANY OF NORTH AMERICA USA as fully and amply, to all intents and purposes, as if the same had been duly executed and acknowledged by its regularly elected officers at the principal office.

The Power of Attorney is executed and may be certified so, and may be revoked, pursuant to and by authority of Article IX, Section 9.03 of the By-Laws adopted by the Board of Directors of THE GUARANTEE COMPANY OF NORTH AMERICA USA at a meeting held on the 31<sup>st</sup> day of December, 2003. The President, or any Vice President, acting with any Secretary or Assistant Secretary, shall have power and authority:

1. To appoint Attorney(s)-in-fact, and to authorize them to execute on behalf of the Company, and attach the Seal of the Company thereto, bonds and undertakings, contracts of indemnity and other writings obligatory in the nature thereof; and
2. To revoke, at any time, any such Attorney-in-fact and revoke the authority given, except as provided below
3. In connection with obligations in favor of the Florida Department of Transportation only, it is agreed that the power and authority hereby given to the Attorney-in-Fact includes any and all consents for the release of retained percentages and/or final estimates on engineering and construction contracts required by the State of Florida Department of Transportation. It is fully understood that consenting to the State of Florida Department of Transportation making payment of the final estimate to the Contractor and/or its assignee, shall not relieve this surety company of any of its obligations under its bond.
4. In connection with obligations in favor of the Kentucky Department of Highways only, it is agreed that the power and authority hereby given to the Attorney-in-Fact cannot be modified or revoked unless prior written personal notice of such intent has been given to the Commissioner - Department of Highways of the Commonwealth of Kentucky at least thirty (30) days prior to the modification or revocation.

Further, this Power of Attorney is signed and sealed by facsimile pursuant to resolution of the Board of Directors of the Company adopted at a meeting duly called and held on the 6th day of December 2011, of which the following is a true excerpt:

RESOLVED that the signature of any authorized officer and the seal of the Company may be affixed by facsimile to any Power of Attorney or certification thereof authorizing the execution and delivery of any bond, undertaking, contracts of indemnity and other writings obligatory in the nature thereof, and such signature and seal when so used shall have the same force and effect as though manually affixed.

IN WITNESS WHEREOF, THE GUARANTEE COMPANY OF NORTH AMERICA USA has caused this instrument to be signed and its corporate seal to be affixed by its authorized officer, this 2<sup>nd</sup> day of October, 2015.

THE GUARANTEE COMPANY OF NORTH AMERICA USA

*Stephen C. Ruschak*

*Randall Musselman*

STATE OF MICHIGAN  
County of Oakland

Stephen C. Ruschak, President & Chief Operating Officer

Randall Musselman, Secretary

On this 2nd day of October, 2015 before me came the individuals who executed the preceding instrument, to me personally known, and being by me duly sworn, said that each is the herein described and authorized officer of The Guarantee Company of North America USA; that the seal affixed to said instrument is the Corporate Seal of said Company; that the Corporate Seal and each signature were duly affixed by order of the Board of Directors of said company.

Cynthia A. Takai  
Notary Public, State of Michigan  
County of Oakland  
My Commission Expires February 27, 2018  
Acting in Oakland County

IN WITNESS WHEREOF, I have hereunto set my hand at The Guarantee Company of North America USA offices the day and year above written.

*Cynthia A. Takai*

I, Randall Musselman, Secretary of THE GUARANTEE COMPANY OF NORTH AMERICA USA, do hereby certify that the above and foregoing is a true and correct copy of a Power of Attorney executed by THE GUARANTEE COMPANY OF NORTH AMERICA USA, which is still in full force and effect.

IN WITNESS WHEREOF, I have thereunto set my hand and attached the seal of said Company this 2<sup>nd</sup> day of January, 2019.

*Randall Musselman*

IN THE CIRCUIT COURT OF THE THIRTEENTH JUDICIAL CIRCUIT  
IN AND FOR HILLSBOROUGH COUNTY, FLORIDA  
CASE NO.: 17-CA-001530 (Div. B)

HENRY and JONADEAN GONZALEZ,

Plaintiffs,

v.

CARROLLWOOD VILLAGE NORTHMEADOW  
CLUSTER HOUSES CONDOMINIUM  
ASSOCIATION, INC.; PHASE II; and  
ADVANCED ROOFING, INC.,

Defendants.

**ORDER OF DISMISSAL WITH PREJUDICE**

This Cause, having come before the Court, on the Parties Joint Stipulation of Dismissal with Prejudice, and the Court having been advised of an agreement between the parties and counsel, and being otherwise fully advised in the premise, it is hereupon:

ORDERED and ADJUDGED that:

1. All claims or causes of action that were raised or could have been raised in this matter are hereby dismissed with prejudice.
2. Each party shall bear their own attorneys' fees and costs.

DONE and ORDERED in chambers, Tampa, Hillsborough County, Florida this 1 day  
of October, 2018.

  
Robert A. Foster, Jr., Circuit Judge

### EXECUTIVE SUMMARY

We are pleased to submit for your consideration this letter of interest for Roofing Services at Broward College. We have currently completed over \$400,000 in repairs and nearly \$9,000,000.00 in replacement/rehabilitation projects at Broward College.

Advanced Roofing installs all different types of roofing and is approved with all the major manufacturers, offering 20-30 year NDL Material and Labor Warranties. Additionally, we have over 30 Term Contracts with various agencies in the State of Florida for Roofing Replacement/Repair Services and we are very familiar with this type of contract/work.

Advanced Roofing, Inc. began in 1983 and has become south Florida's premier commercial roofing specialist. ARI is headquartered in Fort Lauderdale and has additional branches located in Sanford, St. Augustine, Tampa, Jupiter, Miami and Fort Myers. We have grown to be a full-service commercial roofing contractor consisting of a Service Department (providing repairs and maintenance), Metal Roofing Division, HVAC Division, a custom Sheet Metal Fabrication Division, Crane Division and Solar/Renewable Energy Division. Advanced Roofing, Inc. is a State Certified Roofing Contractor, General Contractor, HVAC Mechanical Contractor, Electrical Contractor and State Certified Solar Contractor.

Working on occupied buildings is what ARI does. Performing re-roofs and repairs on holidays, off hours, or nights is standard operating procedure at Advanced Roofing. Our goal is to provide immediate response services without disruption to your facilities. We highly strive on our dedication to work place safety, protecting your assets and ours. Each site will have a customized safety assessment plan to protect your occupants as well as our roofing crews.

We offer a wide variety of roof systems to fit your needs, and we are certified by every major material manufacturer to install the highest quality roofing systems with the best warranties. Our goal is to make the roofing process easy and hassle free for you, our customer. Roofing of occupied buildings is a highly technical process. Our experience constantly improves, from protecting the property, documentation, existing conditions, pre-construction, job meetings, code compliance, involving building departments, manufacturers' representatives, close out and getting other recommendations from you. Our roofing department has over 500 expertly trained Construction Managers, foreman, roofing mechanics and laborers. They are all intensively trained in roofing safety procedures.

Our service department handles all major and minor problems that may occur on your roof quickly, efficiently, and at a reasonable cost. With 55 service trucks on the road in Florida on over 325 buildings, totaling over 9 million square feet of roof, under Advanced Roofing's Proactive Maintenance Agreement, our commitment to service speaks for itself. Advanced Roofing's dedication to clients has allowed Advanced Roofing to grow, expand, and service the roofing needs of some of Florida's biggest businesses, government entities, schools, and more. You can count on ARI to bring our 36 years of impeccable service along with our outstanding safety record throughout every phase of the project. You can expect constant communication,

### **METHODOLOGY AND APPROACH**

Advanced Roofing, Inc.'s methodology and approach is unique in its structure because our set up is based on 36 years of real-life experience within the roofing industry.

We have the capacity of tailoring our system to the needs of the project regardless of the size and contract requirements. Pre-job planning, documentation and communication are key to our operations.

In order to execute the project in a timely, cost-effective and quality manner, we invest quality time with our full team of Estimators, Engineers, Project Managers and Construction Team prior to commencement of all our field operations; again regardless of the size of the project.

Our pre-project planning process is quite extensive. The entire team must understand all phases of the project in order to maintain an efficient line of communication throughout the project. Each member is provided with a project binder which includes the following information:

- Contact Names and Numbers
- Emergency Procedures
- Scope of Work, Project Plans/Specifications
- Material Listing, MSDS Sheets
- Project Schedule
- Permit Information

Our Project Team assembles once a week or as needed to discuss project status and if necessary, effect any changes that may be required to maintain efficiency and schedule. Each member is equipped with Nextel radios and cellular phones with email access to maintain communication at all times.

Training of our field and office personnel is ongoing and is accomplished through on-site hands-on training classes provided by the various manufacturers we are approved by. The field staff and apprentices go through a three-year training program

The President and Vice President attended a TQM class developed by the National Roofing Contractors Association through the University of Chicago Business College. Our Executive Management Team meets twice a month with a two hour "huddle" meeting and once a month for an all-day executive meeting off site.

Advanced Roofing, Inc. also has a full fleet that consists of dump trucks, cranes, boom trucks, flat beds, kettles, and more. By offering these services in-house, we're able to provide our customers more for their money. And that's one of our professional solutions.

We use various computer based applications for tracking a project from the inception of the project to its completion. We have developed our in-house software "RFP Manager" for tracking all in-coming projects. We also utilize Roof Express, CAD Program, Spitfire Project Management Software, and Solomon Accounting Software.

### ORGANIZATIONAL PROFILE

Advanced Roofing, Inc. is the legal name for our organization, which has operated under Korn and Sons Roofing, Inc. from 1983 through 1987 when the legal name was changed to Advanced Roofing, Inc in 1987. We currently have approximately 520 employees and have been in business for over 36 years in the State of Florida. Advanced Roofing has grown to be a full service Commercial Roofing Contractor that has a Service Department (repairs and maintenance), AC/Mechanical/Electrical Department, a Custom Sheet Metal Fabrication Department, Crane Division and Solar Department. We have in house dumpsters, cranes, tracker trailers.

Should the need arise for services that cannot be performed by Advanced Roofing, Inc. staff, every effort will be made to obtain participation from a State Certified Minority Enterprises.

## PROJECT STAFF & STAFF'S QUALIFICATIONS

### **Cost Control & Scheduling:**

We utilize computer-generated schedules for the management construction such as ERP Software/ Spitfire, Solomon database, Auto CAD, and Microsoft Project Applications.

The duration of the project and review of the schedule as well as the phases of the project are discussed in the pre-construction meeting. Shop drawing submittals go through a review process by the Estimator/ Project Manager, Construction Manager, Consultant, and / or Architect/ Engineer.

If subcontractors are being utilized, the project schedule is coordinated by the Project Manager with the subcontractor. Our Staff Accountant reviews the subcontractor's insurance and paperwork to confirm they compliant with our policies and will be eligible to perform work on ARI jobsite. Project Manager prepares a Subcontract Agreement and Schedule of Values for them. The Project Manager then meets with the Construction Manager to finalize the schedule criteria for the subcontractor to begin work at the job site.

Experience in handling crew loading and coordinated construction scheduling: The V.P. of the Roofing Division assigns a Project Manager to the project and the job is added to the Foreman Schedule. He then assigns a Construction Manager, Foreman, and roofing crew to the job and schedules a start date. The assigned Project Manager and Construction Manager visit the job site and confirm the job specific details. Projects are scheduled at least three weeks in advance so the Foreman, Construction Manager and Project Manager are on the same page. Our Spitfire software provides reports that are reviewed every Monday with the whole project management team and the Owner. Advanced Roofing's experience has led it to have the fastest turnaround of permits, which allows us to begin the job on time and on budget.

Experience in the cost loading of schedules: We have installed state-of-the-art Project Management & Accounting Software called "Spitfire". This tool is used for change orders, track labor & material cost, approve/ view invoices, and many other functions. At any time, the Project Manager has the ability to track and review job costs and rescheduling. This paperless system is the most technologically advanced system available.

### **Subcontractors:**

Advanced Roofing, Inc. does not routinely utilize subcontractors. We currently employ over 500+ employees. Over the past 35 years, Advanced Roofing, Inc. has put money back into the company and community.

- We have our own fleet of vehicles that include trucks, cranes, semi-tractor trailers, hydro, tower crane, equipment and dump trucks to haul our roofing debris. This allows Advanced Roofing, Inc. the control of having trailers at our disposal when we need them and therefore allows for a smoother project.

ESTABLISHED 1983

- We also have our own state-licensed Air Conditioning Division – This again allows us to coordinate the shutdown and raising of the air conditioning units on the roof.
- Lightning Protection Division
- Electrical Division
- In-house Sheet Metal Division – where we fabricate our own metal.
- We are a licensed General Contractor – which allows us to handle small contracting items on the roof.
- Certified Solar/PV system installer for renewable energy projects.

When a project calls for subcontractors to perform work that we are not licensed to perform, **qualified** subcontractors which are most competent and ready to complete the necessary to meet schedule will be selected.

\*Advanced Roofing, Inc. actively participates in minority and/or small disadvantaged business contracting and utilize whenever possible.

### **Project Team Approach**

#### **Section 1.1 Purpose and Scope**

The Advanced Roofing Quality Management System (QMS) has been established to define the Quality Control and Quality Assurance procedures and documentation for the Engineering, Procurement, Construction, Test and Commissioning of Solar Power Projects.

Advanced Roofing Strives to become the “Customers First Choice” for all your roofing needs through its ability to consistently provide:

- Superior service
- Excellent quality
- Innovative solutions
- Best in class value

#### **Section 1.2 Customer Focus**

Advanced Roofing Management is determined to make Advanced Roofing a Customer focused organization. This will be achieved by way of employee training, committing resources, addressing each Customer complaint / feedback and regular Customer satisfaction assessment. Advanced Roofing determines the specific requirements of Customers and ensures delivery of Product / services as per the requirements with the aim of enhancing Customer Satisfaction.

ESTABLISHED 1983

### **Section 1.3 Quality Objectives**

- Meeting all applicable code requirements, statutory regulations and offering high degree of overall installation quality, safety, reliability, maintainability and economic efficiency.
- Providing adequate training to all personnel performing activities concerning Quality and motivate them to achieve high productivity levels in a good working environment.
- Procurement of consistent quality materials, Products and Consumables through approved resources.
- Establishing, monitoring and controlling qualified processes and equipment.
- Ensuring good housekeeping, cleanliness and safety.
- Striving for continuous Quality improvement.

### **Section 1.4 General Requirements**

The QMS has been established, documented, implemented in line with Industry Practices, Customer Requirements and all applicable Standards/ Codes/ Regulations. Advanced Roofing Management is fully committed to continually improve the effectiveness of its QMS which:

- Identifies the processes needed for its operation and their application throughout Advanced Roofing.
- Determines the criteria and methods needed to ensure that both the operation and management of these processes are effective.
- Ensures the availability of resources and information necessary to support the operation and monitoring of these processes.
- Ensures implementation of actions necessary to achieve planned results and continual improvement of these processes.

ARI Management guarantees that the processes will be managed in accordance with customer requirements and all applicable standards / regulation.

### **Section 1.5 Overview**

The Quality Program will be divided into the following sections:

- Roles and Responsibilities
- Documentation
- Quality Procedures for Engineering and Design
- Quality Procedures for Receiving Material
- Quality Procedures for Construction and installation
- Quality Procedures for Test and Commissioning

ESTABLISHED 1983

effective corrective action is taken.

- Responsible for all Site Test & Commissioning activities.
- Responsible for Site Safety.
- On site Project Documentation.

#### 4. Safety/Quality Control

**Basic Functions-** provides another independent view and perspective for insuring that our installations are meeting and exceeding all requirements.

- Attends all job sites at the preconstruction meeting as well as random visits to ensure that we are in compliance with all safety requirements and that our employees are working as safe as possible.
- This individual works with field technicians during ongoing installations to provide guidance, field demonstration, requirement accountability, and training. In process inspections are conducted routinely by this individual to insure the installation is being provided at the highest level of workmanship. These inspections are conducted separate from production demands with focus directed strictly on quality of installation. Any deficiencies noted during such inspections are communicated to the construction manager and site foreman along with remediation efforts to assure that the installation is the best possible quality. Deficiencies can apply to product manufacturer requirements, code enforcement requirements, contractual requirements, and industry standard requirements.
- This individual will review the foreman's daily safety (tool box talks) meeting notes and log to insure that safety is routinely discussed and practiced among our employees.
- This individual provides routine safety training to all of our employees. Our foremen are CERTA trained and certified. Our foremen and construction managers are all OSHA 30 certified.

### Section 3 Subcontractors

#### Section 3 Proper documentation, certification and experience

Project manager is responsible for ensure subcontractors have proper Insurance coverage, WSIB, Safety, and license requirements prior to issuing subcontract, documenting files appropriately. Project Manager will issue subcontractors a copy of the Advanced Roofing Safety Policy before the start of construction.

Construction Manager is responsible for ensuring that all subcontractors personal on

# Project Management

At Advanced Roofing, roofing is our business. That's why we are committed to precision and quality. We work with owners, engineers, architects and consultants to provide the right bid for your project.

We offer a wide variety of systems to fit your needs, and we are certified by major roofing manufacturers to install the highest systems with the best warranties. Our goal is to make the process easy and hassle free for you, the customer.

Our experience constantly improves from protecting the property, documentation, existing conditions, pre-construction, job meetings, code compliance, involving building departments, manufacturers' representatives, close out and getting other recommendations from you.

**Subject:** Project Reference for Nova - HPD Annex  
**Importance:** High

Hi David,

I just left you a voicemail regarding a project reference for the HPD Annex at Nova Southeast University. We are currently bidding the term contract for Broward College & they are requiring 4 project reference surveys. It would be GREATLY appreciated if you could help us out with providing us with this as it's also a college project.

The form attached would need to be filled out (just the questions section 1-12) saved as a PDF and emailed directly to the college by Wednesday, 12/4 by 2:30pm. I will list the info below. Please let me know if you are able to do this for us as we are required to submit a total of 4. Thank you again.

Form gets emailed directly to [ehunt@broward.edu](mailto:ehunt@broward.edu) & if you could cc myself at [faithw@advancedroofing.com](mailto:faithw@advancedroofing.com)

Thank you,  
**Faith Williams**

### **PROPOSED SCOPE OF SERVICES**

Advanced Roofing will provide 24/7 emergency services for normal conditions and post hurricane/natural disaster conditions, which may include temporary securing of roofs of facilities and communicating with Broward College personnel as to a schedule for permanent repairs and costs. Advanced Roofing will respond within twenty-four (24) hours of the initial request/call. Advanced Roofing will respond to post hurricane/natural disaster service calls immediately and advise Broward College personnel of availability of roofing contractor crews.

Advanced Roofing is familiar with current versions and amendments of SREF, Department of Education, and Florida Building Code Requirements, as well as the Colleges' Construction Standards.

Advanced Roofing, Inc. is uniquely positioned to bring the most innovative roofing techniques and products our customers. ARI began in 1983 and has since grown to be South Florida's premier commercial roofing specialist. We have become a full-service roofing contractor, consisting of: a service department providing repairs and maintenance, metal roofing department, HVAC department, a custom sheet metal fabrication department, crane division and solar/renewable energy department.

We fully acknowledge and understand the challenges inherent in every roofing project; particularly the specialty work required on occupied buildings. Our extensive experience in roofing occupied government facilities has made us mindful and aware that we must accommodate you in having as little disruption as possible during the roofing process.

We offer a wide variety of roof systems to fit your needs, and we are certified by every major material manufacturer to install the highest quality roofing systems with the best warranties. Our goal is to make the roofing process easy and hassle free for you, our customer. Roofing of occupied buildings is a highly technical process. Our experience constantly improves, from protecting the property, documentation, existing conditions, pre-construction, job meetings, code compliance, involving building departments, manufacturers' representatives, close out and getting other recommendations from you. Our roofing department has over 300 expertly trained Construction Managers, foreman, roofing mechanics and laborers. They are all intensively trained in roofing safety procedures.

Our service department handles all major and minor problems that may occur on your roof quickly, efficiently, and at a reasonable cost. With over 325 buildings, totaling over 9 million square feet of roof, under Advanced Roofing's Proactive Maintenance Agreement, our commitment to service speaks for itself. Advanced Roofing's dedication to clients has allowed Advanced Roofing to grow, expand, and service the roofing needs of some of Florida's biggest businesses, government entities, schools, and more.

ESTABLISHED 1983

### APPROACH/METHODOLOGY

We currently have an existing term contract with Broward College and therefore Broward College is on our "Emergency First Response List" moving emergencies to the front of the line. As a part of our "**Emergency First Response List**", we want to assure you that Advanced Roofing is equipped with the manpower, supplies and resources to meet your needs should devastation result from a hurricane. Some of the action plans that we have in place in order to facilitate a timely emergency response are listed below:

- Offsite Email – This ensures that any electronic communication will not be affected in the event of a natural disaster.
- Satellite Phones - Available to all branch locations in the event that conventional phone lines are affected.
- Emergency Generators – In place at all branch locations.
- Fuel – Ample on site fuel supplies for our entire fleet.
- **Roof Connect – SWAT (Severe Weather Action Team)** – Over 60 of the premier roofing contractors throughout the United States that have made a commitment to provide resources and assist ARI in the event of a natural disaster.
- As a new service, we will GPS all of your locations. This will assist Rob when he performs emergency flyovers and also our emergency site investigation teams.

Advanced Roofing, Inc.'s methodology and approach is unique in its structure because our set up is based on 36 years of real-life experience within the roofing industry.

We have the capacity of tailoring our system to the needs of the project regardless of the size and contract requirements. Pre-job planning, documentation and communication are key to our operations.

In order to execute the project in a timely, cost-effective and quality manner, we invest quality time with our full team of Estimators, Engineers, Project Managers and Construction Team prior to commencement of all our field operations; again regardless of the size of the project.

Our pre-project planning process is quite extensive. The entire team must understand all phases of the project in order to maintain an efficient line of communication throughout the project. Each member is provided with a project binder which includes the following information:

- Contact Names and Numbers
- Emergency Procedures
- Scope of Work, Project Plans/Specifications
- Material Listing, MSDS Sheets
- Project Schedule
- Permit Information

[www.advancedroofing.com](http://www.advancedroofing.com)

800 638.6869 TEL 954.522.6868 FAX 954.566.2967  
1950 NW 22<sup>nd</sup> Street | Fort Lauderdale | Florida 33311

CC-C024413

ESTABLISHED 1983

Our Project Team assembles once a week or as needed to discuss project status and if necessary, effect any changes that may be required to maintain efficiency and schedule. Each member is equipped with cellular phones with email access to maintain communication at all times with the college personnel.

Training of our field and office personnel is ongoing and is accomplished through on-site hands-on training classes provided by the various manufacturers we are approved by. The field staff and apprentices go through a three-year training program

Advanced Roofing, Inc. also has a full fleet that consists of dump trucks, cranes, boom trucks, flat beds, kettles, and more. We also have an in-house mechanical, electrical, sheet metal, lightning protection and service division to further handle any additional services required in relation to your roofing needs. By offering these services in-house, we're able to provide our customers more for their money. And that's one of our professional solutions.

Advanced Roofing agrees to provide only materials and equipment that are 100% lead free.

Advanced Roofing has been a licensed roofing contractor since 1983 and are committed to 100% quality of all of our roofing projects. We guarantee all services as described in this Request for Proposal in full compliance with applicable Federal, State, and Local laws including all rules, regulations, guidance documents and requirements as well as required licenses and permits related to commercial roofing services.

See attached Safety & Quality Control plan. As well as reports submitted after service.

## **SAFETY**

### **Introduction**

At Advanced Roofing, Inc., safety is our top priority. We are committed to having a safe and healthful workplace. By providing an environment that is free from recognized hazards we are able to protect our most valuable resource, our employees. In order to strengthen our commitment, we currently have four Safety Coordinators and a Safety Director. Our safety department is dedicated to the following

### **Training**

All new hires must successfully complete our safety orientation. The safety orientation includes a comprehensive course on fall protection, hazard communication, personal protective equipment, Fire Prevention and Protection, Ladder Safety and What to do if you're injured. After successfully completing the new hire orientation employees are given personal protective equipment and a safety vest. The vest must be worn at all times during the first 90 days of employment. By identifying new employees we are able to provide them with the extra coaching and attention that is necessary to achieve safe habits. Continuous training occurs throughout the year in the form of department stand downs, scheduled trainings, weekly tool box talks, Job specific safety training (CERTA, Respirators, Confined Space, Lock Out Tag Out, etc.), Powered Industrial Trucks (Class I, IV, V, and VII), Aerial Lifts and working platforms (Boom, Scissor), Propane safety, National Safety Council DDC4 and many more. Our Foremen and Construction Managers have successfully completed the 1926 OSHA 30 Hour Course. The safety department currently has three OSHA 500 outreach trainers on staff.

### **Pre-Construction and Mobilizing**

A pre-construction meeting is held for all jobsites. A representative of the safety department is required to attend the pre-construction meeting. Prior to the meeting a walkthrough occurs that includes the Safety Representative, Vice President of Construction, Project Manager, Construction Manager and Foreman. During the walkthrough the construction process is discussed along with all foreseeable safety hazards. A fall protection plan is communicated and agreed upon. A Site Specific Safety Plan (SSSP) is created based on the preconstruction walkthrough. The SSSP includes the fall protection plan, emergency contact numbers, nearest hospital, evacuation plan, job specific hazards, etc. When the SSSP is approved by the Safety Director it is distributed to all parties involved including the client. On the day that mobilization takes place a Safety Coordinator will be present to assist with safety compliance. The safety coordinator will ensure that all hazards are identified and communicated to all affected parties. This includes the method of controlling or eliminating the hazards. Lastly, all Safety Data Sheets are communicated for the materials on site.

## Compliance

Our Safety Department is responsible for ensuring compliance with all Federal and State safety standards. We achieve compliance by performing daily unannounced jobsite safety evaluations. The JSE's are conducted by the safety coordinators with the cooperation of the site foreman. As part of our commitment to safety at all levels, we also require our Construction Managers to complete a weekly site safety evaluation. The results of all job site safety evaluations are shared with the safety committee. When required, a site safety stand down will occur if Advanced Roofing safety standards are not being met. Policies and procedures are in place to discourage unsafe behavior that may lead to a near miss or workplace injuries.

## Employee Participation

Department safety meetings are held once a month with every department. During these meetings employees are encouraged to give feedback on improvements, equipment, training, etc. A safety Committee Meeting that includes an employee representative, department managers, upper management and the safety department is held on a Bi-Monthly basis. The safety committee discusses workplace injuries, root cause analysis results, lessons learned, and employee feedback. Our goal is to provide our employees with multiple lines of communication to keep an open dialogue about safety.

## Safety Performance

	ARI	Injuries ARI	ARI RIR	BLS 23816	Experience Modification Rate

 Wilmer Mojica Safety Coordinator  
 Jose Hernandez Safety Coordinator  
 Ramon Perez Safety Coordinator

## **Policy Regarding Quality Control and Quality Assurance Roofing and Sheet Metal Operations**

**Our mission is to provide quality roof installation along with service and maintenance of existing roof systems to the degree of exceeding customer expectations, manufacturer requirements, code enforcement, and industry standards.**

**We not only strive to exceed requirements and expectations in the installation of the roof system but also in customer service.**

Quality control and assurance is built into the culture of Advanced Roofing.

Upon request for proposal we educate ourselves to the client's needs and expectations to provide the best value to the client. We perform thorough site visits, condition reviews, and cost analysis. This is all compiled and then communicated with the client to provide the client with the best possible roof system to suit the client's needs.

Upon award of a proposed project, we conduct thorough handoff meetings with our estimator to production department representatives to insure that all specific information for the project is communicated accurately from the proposal process to the close out process.

There are project manuals that are composed and given to the project manager, construction manager, and site foreman. This insures that the project information stays integral throughout the process from start to finish.

If possible, site meetings are scheduled with the client and our construction manager and site foreman to review all project information.

The site foreman is a non-working foreman whose focus is in insuring that the project requirements are being followed as planned. In the event that an unforeseeable event or condition occurs, the site foreman works with the construction manager to insure lines of communication remain open to the client so that any actions required can be communicated quickly and efficiently.

It is the foreman's primary duty to insure the installation of the roofing system is being installed at a professional and beyond expectation manner. The foreman has the authority to make corrective actions if needed. This individual conducts daily testing such as field cuts to insure that the installation conforms to the manufacturer, code enforcement, industry standard, and contractual requirements.

We conduct routine and thorough training classes with all of our technicians. These classes are "in house" as well as third party taught classes. We believe that providing the routine training to our employees results in a more complete technician who employs the best practices for roof installation. It is important to us that our employees are provided with the best industry practices along with the most current product and technological methods. Including safety training, NRCA industry standard training, and manufacturer installation training.

The construction manager is the next line of accountability for insuring that all facets of the project are being processed correctly. The construction manager routinely inspects the ongoing installation for conformance to all code, industry, manufacturer, and contractual requirements. This representative has the authority to alter, stop, or remove and replace sub-par installation. The construction manager insures that all logistics for the project are handled to minimize any impact to customer's daily activities or operation. The construction manager will conduct daily inspections of the project to insure the installation is being provided per requirements. Daily photographs and a daily report confirming that these requirements are being achieved is documented. A weekly meeting is held with this level of management to review ongoing installations and insure that all work installed is being performed per Advanced Roofing and Florida Building Code requirements.

A project manager is assigned to each project. This individual will conduct random site visits to confirm that all contractual requirements, along with quality control requirements are being provided.

We employ a quality control manager. This representative provides another independent view and perspective for insuring that our installations are meeting and exceeding all requirements. This individual works with field technicians during ongoing installations to provide guidance, field demonstration, requirement accountability, and training. In process inspections are conducted routinely by this individual to insure the installation is being provided at the highest level of workmanship. These inspections are conducted separate from production demands with focus directed strictly on quality of installation. Any deficiencies noted during such inspections are communicated to the construction manager and site foreman along with remediation efforts to assure that the installation is the best possible quality. Deficiencies can apply to product manufacturer requirements, code enforcement requirements, contractual requirements, and industry standard requirements.

In addition, we have a full-time safety officer that attends all job sites at the pre-construction meeting as well as random visits to ensure that we are in compliance with all safety requirements and that our employees are working as safe as possible. This individual will review the foreman's daily safety ( tool box talks) meeting notes and log to insure that safety is routinely discussed and practiced among our employees. This individual provides routine safety training to all of our employees. Our foremen are CERTA trained and certified. Our foremen and construction managers are all OSHA 30 certified.

We rely in great part on our reputation as a quality driven company to insure future business from satisfied clients and their recommendations. It is paramount that to us that all facets of our business operate with a mind set that exemplifies quality. We request that at the end of all projects that our customer review with our construction manager a brief survey to review that customer satisfaction has been achieved. We use any information or suggestion received to increase our offering as a business that provides the ultimate in quality installation and customer service.

# Manage All of Your Roof Assets with THE CLICK OF A BUTTON.

## About Advanced Access

Advanced Roofing Inc.'s convenient and easy-to-use Advanced Access cloud-based roof management portal gives building owners and property managers information about their roof assets on their own terms. Whether in the office, at home or in the field, the information you need is always available through any internet-ready device.

## Advanced Access Features

**Sites Dashboard:** Quickly view details about all of your roof assets in one location.

**Service Dispatch Center:** Send and track roof work orders with the click of a button.

**Site Inspection Reports:** Generate custom reports for your roof assets in minutes.

## Sites Dashboard

The Advanced Access Sites Dashboard allows customers to quickly view all of their roof assets in one place. No matter where you are, the dashboard gets you to the resources you need in real-time. Sites Dashboard benefits include:

- **Communication Tracking:** Email roof-related inquiries within the system to create a permanent record of all correspondence.
- **Interactive Maps:** Check the properties you're interested in visiting and map their locations.
- **Document Storage:** Find the property information you need easily with search, filter and sort tools.
- **Custom Reports:** Print or export your roof asset data to Excel and create custom reports.

## Service Dispatch Center

Advanced Access gives you the capability to send and track work order requests to our team from anywhere with the click of a button. With package-style tracking, you can follow a project in real-time until the issue is resolved.

Dispatch 02/04/15 7:36:49 AM	Arrival ETA 02/05/15 8:00:00 AM	In Progress 02/05/15 8:30:23 AM	Resolved 02/05/15 10:03:45 AM	Confirmed 02/05/15 10:33:00 AM
------------------------------------	---------------------------------------	---------------------------------------	-------------------------------------	--------------------------------------

Service Dispatch benefits include:

- **One Click Dispatch:** Use any internet-enabled device to schedule roof work.
- **Package-Style Tracking:** Work orders are tracked and time stamped at every step so you know the status of your project.
- **Automated Billing:** Invoices automatically generate as the ticket is closed out.

## Site Inspection Reports

Advanced Access Site Inspection Reports provide customers with up-to-date digital reports of their roof assets and offers custom reporting to help with budgeting for future repairs and capital expenditures. No more hard-copy paper reports from the past. Advanced Access generates "living" inspection reports that are updated when service work is completed on your roof. Roof inspections are uploaded to the customer portal seamlessly and can be viewed from any device. Site Inspection Reports benefits include:

- **Observations:** View your roof without ever leaving the office. All service tickets, warranty information, invoices and repair documentation are stored for future analysis.
- **Current Condition:** View a summary that quantifies your roof assets' current status and the expected useful life.
- **Recommendations:** Receive suggestions on roof work driven by quality, supporting information and easy-to-understand grading.

## **Small Disadvantaged Businesses Plan**

Advanced Roofing actively participates in meeting or surpassing the percentage goals of the Small Disadvantaged Business Programs. We are committed to having strong working relationships with certified Small Disadvantaged Business Contractors. With over 40 term contracts established with clients we have been serving for over three decades. Advanced Roofing, Inc. makes every effort to incorporate SDB owned businesses in our construction plan. As a result of our excellent working relationship with a sizeable pool of licensed and approved SDB contractors throughout the state, Advanced Roofing is able to call on these contractors as needed. Just as we provide our services on time and on budget, we expect the same performance from our SDB Contractors.

For Design Work and Architectural Services, we will partner with ACAI Associates, Advanced Roofing has worked with Adolfo Cotilla and his team for over 30 years. ACAI is an expert in roofing and waterproofing specifications. We have performed re-roofs with ACAI at West Palm Beach Courthouse, School District of Palm Beach County and USPS just to name a few.

Fastrack will be utilized for any Interior GC work. Sasha and his team have an existing contract with Broward College presently. Fastrack has a good knowledge of the campuses and Broward College regulations. Advanced Roofing has teamed with Fastrack at Broward College on previous projects.

We Pro-Tec is a specialty company specializing in interior protection while re-roofing is being performed on existing buildings. They are experts in their field. Advanced Roofing has brought in We Pro-Tec at a very intensive project at Pratt Whitney. The roofing and entire metal deck had to be replaced, you could literally see the sky. With Rocket Engineers and High Tech Helicopters being manufactured below, Advanced Roofing and We Pro-Tec kept Pratt Whitney up and running. Finished project On Time and On Budget with no incidents. While they are pending their renewed Broward College SDSB Program approval letter, we intent on using them on future projects.

December 18, 2018

Adolfo Cotilla  
ACAI Associates, Inc.  
2937 W Cypress Creek Road, Suite 200  
Fort Lauderdale, FL 33309

Dear Adolfo Cotilla:

Congratulations! The Broward College Office of Supplier Relations and Diversity is pleased to announce that your firm is now part of the College's Small Disadvantaged Business (SDB) program. The certification certificate received from State of Florida – Office of Supplier Diversity has been verified in accordance with Broward College's SDB Program requirements. The validation process documents your firm as a certified supplier.

Your firm's validation from State of Florida – Office of Supplier Diversity will expire on **12/10/2020**.

During the certification period, please notify the Office of Supplier Relations and Diversity and your certifying agency immediately of any changes to your information during the certification period, such as: contact information, firm ownership and managerial or operational control.

Broward College provides access to supplier resources and procurement opportunities online at [broward.edu/supplierdiversity](http://broward.edu/supplierdiversity). This link also gives you access to the Certified Supplier Directory. Should you have any questions, please contact the Office of Supplier Relations and Diversity at (954) 201-7824 or email [SDC@broward.edu](mailto:SDC@broward.edu).

Sincerely,

Broward College Office of Supplier Relations and Diversity
