TITLE

ESE Department: Vocational Rehabilitation Work Based Learning Experience

BACKGROUND INFORMATION

The purpose of this Contract is to create and/or expand Work-Based Learning Experience (WBLE) for transition Students with Disabilities. WBLE is an instructional methodology that uses the workplace or real work to provide students with the knowledge and skills that will help them connect experiences while in school to real life work activities and future career opportunities, increasing their post-school outcomes. Students participating in WBLE develop appropriate work skills, behaviors, and work tolerance needed to plan for and achieve successful employment after high school. It is essential that direct employer or community involvement be a component of the WBLE to ensure student engagement. These opportunities are meant to engage and motivate students, while augmenting the learning process. In addition, WBLE requires students to actively participate and includes an evaluation of relevant acquired skills.
